

NUEVO

COMPANY PROFILE

01. TRUSTED SERVICE

NUEVO is an East African industrial solutions partner supporting mining, oil & gas and infrastructure operators with dependable supply, equipment hires, and site services. We combine disciplined execution, robust safety practices, and trusted supplier relationships to help clients reduce downtime, manage risk, and maintain operational continuity across demanding environments.

02. WHO WE ARE

Established in early 2010, NUEVO has grown into a trusted provider supporting mining, oil & gas and infrastructure-linked projects across East and Central Africa, with active operations in Tanzania and Zambia. We support complex, high-stakes environments by working closely with EPCs, mining clients and construction contractors to understand operational requirements and deliver fit-for-purpose solutions, reliably, safely, and with consistent standards. Where Dangerous Goods handling is required, NUEVO is aligning to recognised compliance frameworks.

Our purpose is to create enduring value and operational certainty for our people, clients, investors, and the communities in which we operate.

With more than 16 years of sector experience, we have contributed to projects across a diverse commodity base, including gold, nickel, iron ore and lithium, reflecting both technical capability and on-the-ground execution strength.

Safety is fundamental to how we operate. We are committed to protecting our teams and partners, strengthening capability through training and accountability, and building a high-performing workforce that delivers consistently, especially within the realities of multi-party, contractor-based environments.

We remain focused on sustainable growth, underpinned by operational excellence and a commitment to delivering measurable value to every client engagement. As we scale, we are also building strategic supplier relationships and securing brand partners to expand our portfolio and strengthen delivery confidence across the regions we serve.

Contact us to learn how NUEVO can support your operation with dependable delivery, strong governance, and professional standards aligned to international expectations.

3. OUR GUIDING PRINCIPLES

3.1 INTEGRITY

We operate with strong ethics, transparency, and accountability in every decision.

3.2 SAFETY

We protect our people, partners, and communities through disciplined safety practices and responsible operations.

3.3 TEAMWORK

We collaborate closely with clients and suppliers, combining expertise to deliver the best outcomes.

3.4 INNOVATION

We pursue practical improvement by applying new ideas, proven technologies, and efficient ways of working.

We foster pride, ownership, and responsiveness throughout the organization, reflected in how we engage with clients, suppliers, and one another.

4. PRODUCT & SOLUTIONS

4.1. INDUSTRIAL LUBRICANTS

NUEVO is committed to being a dependable, outcomes-driven partner in high-consequence environments. We focus on doing the basics exceptionally well, showing up consistently, communicating clearly, meeting site expectations, and delivering fit-for-purpose solutions that protect uptime, safety, and performance. Every engagement is approached with accountability and a long-term mindset, because trust is earned through repeatable delivery.

PRODUCT RANGE INCLUDES:

- Gear oils.
- Hydraulic oils.
- Circulation oils.
- Greases.

4.2. CHEMICALS & REAGENTS

NUEVO supplies specialty chemicals and reagents that support critical processes in mining and energy operations. We prioritise product quality, safe handling, and consistent performance, supported by reliable supply continuity and responsible standards.

**NUEVO lubricants
are suited to rugged
operational environments
- from high-precision
industrial machinery to
heavy-duty equipment-
helping protect critical
assets and reduce
maintenance exposure.**

PRODUCT RANGE INCLUDES:

- Sodium Cyanide.
- Activated Carbon.
- Caustic Soda.
- Sulfuric Acid.

4.3. PPE & SAFETY EQUIPMENT

Workplace safety is a non-negotiable priority, particularly in mining, oil & gas and industrial environments where operations demand strict protocols and reliable protective equipment. NUEVO supplies a comprehensive range of PPE designed to safeguard personnel while supporting operational readiness and compliance requirements.

OUR PPE RANGE INCLUDES:

- Eye & Face Protection:
Safety eyewear, face shields, protective masks.
- Hand Protection:
Gloves for construction, marine, oil & gas, electrical applications.
- Safety Footwear:
Durable safety boots for demanding environments.
- High-Visibility Workwear:
Vests and jackets with reflective materials for enhanced visibility.

**We understand
that safety
depends on
reliability,
standards we do
not compromise.**

+

As a trusted PPE supplier in Tanzania and the broader region, we focus on durability, fit-for-purpose selection, and consistent supply, aligned to recognised safety standards.

5. SUSTAINABLE SITE SOLUTIONS

5.1. MOBILE WATER TREATMENT

NUEVO provides mobile water treatment solutions designed to support on-site efficiency and environmental responsibility. Systems are deployed to treat, recover, and reuse water where feasible, helping reduce consumption and limit waste outputs.

5.2. WASTE MANAGEMENT

NUEVO delivers integrated waste management solutions to support responsible site operations. Our approach prioritises compliance, safe handling, and structured processes, reducing risk while supporting environmental stewardship.

5.3. MOBILE INCINERATORS

NUEVO offers mobile incineration solutions for controlled on-site waste processing where appropriate. These solutions reduce transport requirements and support efficient waste handling, aligned to site controls and compliance requirements.

5.4. PREFABRICATED/MODULAR BUILDINGS

NUEVO provides prefabricated and modular site infrastructure designed for fast deployment, flexibility, and durability in demanding environments, from early-stage exploration to operational site support.

6. EQUIPMENT HIRE

6.1. YOUR PARTNER IN EQUIPMENT HIRE & SITE SUPPORT

NUEVO provides modern equipment hire supported by professional service and workshop capability, helping mining, energy and infrastructure clients operate safely, efficiently, and consistently across East and Central Africa.

Whether supporting complex project execution or ongoing operations, we combine international service expectations with local execution capability, delivering dependable equipment and responsive support aligned to site realities.

EQUIPMENT CATEGORIES INCLUDE:

- Telehandlers.
- Cherry pickers.
- Mobile cranes.
- Workshop & service support.

**Partner with
NUEVO for disciplined
execution, reliable
support, and a
service culture
built around safety
& accountability.**
